

MONTEREY BAY NATIONAL MARINE SANCTUARY

**Monterey Bay National Marine
Sanctuary
Draft Management Plan**

June 2020

In accordance with the National Marine Sanctuaries Act (NMSA; 16 U.S.C. §§ 1431 et seq.), the management plan for Monterey Bay National Marine Sanctuary (MBNMS) has been updated. The updated plan applies to the entire area encompassed by the sanctuary. The issue areas and programs addressed in this document were built with guidance from the general public, sanctuary staff, agency representatives, experts in the field, and the Sanctuary Advisory Council.

For readers wanting to learn more about the management plan, MBNMS policies and community-based management processes, we encourage you to visit the sanctuary's website at <https://montereybay.noaa.gov/>. Readers who do not have internet access may call the sanctuary office at (831) 647-4201 to request relevant documents or further information.

The National Oceanic and Atmospheric Administration's (NOAA) Office of National Marine Sanctuaries (ONMS) serves as the trustee for a network of underwater parks encompassing more than 600,000 square miles of marine and Great Lakes waters from Washington state to the Florida Keys, and from Lake Huron to American Samoa. The network includes a system of 14 national marine sanctuaries and Papahānaumokuākea and Rose Atoll marine national monuments.

NOAA's National Ocean Service (NOS) is the umbrella organization for ONMS and is dedicated to exploring, understanding, conserving, and restoring the nation's coasts and oceans. NOS works to balance environmental protection with economic prosperity, promoting safe navigation, supporting coastal communities, sustaining coastal habitats, and mitigating coastal hazards.

NOAA, an agency of the U.S. Department of Commerce, is dedicated to enhancing economic security and national safety through the prediction and research of weather and climate-related events and providing environmental stewardship of our nation's coastal and marine resources.
