**MONTEREY BAY NATIONAL MARINE SANCTUARY  
SANCTUARY ADVISORY COUNCIL  
CHARTER**

**INTRODUCTION**

A marine sanctuary is an area of the marine or Great Lakes environment of special national, and sometimes international, significance warranting protection and management ~~by the Federal government under the National Marine Sanctuaries Act (NMSA)~~. As stewards of coastal and ocean resources, the National Oceanic and Atmospheric Administration (NOAA) protects and manages sanctuaries through the ~~National Marine Sanctuary Program (NMSP)~~ Office of National Marine Sanctuaries (ONMS). The mission of the ~~NMSP~~ ONMS is to comprehensively protect and manage marine areas of special national significance ~~and~~ to protect their ecological and cultural integrity for the benefit of current and future generations. In order to meet the goals of its programs, NOAA employs ecologically sound principles of resource conservation, develops and promotes stewardship, upholds education and research programs that foster public understanding, support and participation, and promotes the ecologically sustainable use of the nation's natural and cultural marine resources. The ONMS provides necessary leadership and strives to link the assets of government and non-government organizations to focus attention on the importance of managing and protecting marine resources.

Goals of the ONMS are:

- Identify, designate, and manage sanctuaries to maintain the natural biological communities in sanctuaries and to protect and, where appropriate, restore and enhance natural habitats, populations, and ecological processes, through innovative, coordinated, and community-based measures and techniques.
- Build and strengthen the nation-wide system of marine sanctuaries, maintain and enhance the role of the system in larger marine protected area networks, and help provide both national and international leadership for marine protected area management and marine resource stewardship.
- Enhance nation-wide public awareness, understanding, and appreciation of marine and Great Lakes ecosystems and maritime heritage resources through outreach, education, and interpretation efforts.

- Investigate and enhance the understanding of ecosystem processes through continued scientific research, monitoring, and characterization to support ecosystem-based management in sanctuaries and throughout U.S. waters.
- Facilitate human, including sustainable fishing, use in sanctuaries to the extent such uses are compatible with the primary mandate of resource protection, through innovative public participation and interagency cooperation.
- Work with the international community to strengthen global protection of marine resources, investigate and employ appropriate new management approaches, and disseminate ONMS experience and techniques.
- Build, maintain, and enhance an operational capability and infrastructure that efficiently and effectively support the attainment of the ONMS mission and goals.

In September 1992, the Monterey Bay National Marine Sanctuary (MBNMS) was designated as the nation's largest marine protected area. The Sanctuary lies along 360 276 miles of California coastline and encompasses a 5,300 square mile area of coastal and ocean resources. It supports an exceptionally productive ecosystems and highly diverse habitats.

As of March 2004, ~~the ONMS Director announced that~~ the area within the Monterey Bay National Marine Sanctuary (MBNMS) north of the San Mateo/Santa Cruz county boundary, ~~referred to as the Northern Management Area (NMA), would be~~ is administered by the Gulf of the Farallones National Marine Sanctuary (GFNMS). The legal boundaries of each sanctuary remain as is. Specifically, ~~the~~ GFNMS is responsible for developing and managing most sanctuary programs within the NMA area; the MBNMS is responsible for the Water Quality Protection Program. Other issues (e.g. ~~+~~ action plans in the revised management plan) that overlap ~~the NMA~~ will be worked on collaboratively between the GFNMS and MBNMS.

Goals of the Monterey Bay National Marine Sanctuary are:

- To enhance resource protection through comprehensive and coordinated conservation and management tailored to the specific resources that complements existing regulatory authorities;
- To support, promote, and coordinate scientific research on, and monitoring of, Sanctuary resources to improve management decision-making in the Sanctuary;
- To enhance public awareness, understanding, and ecologically sound use of the marine environment; and

- To facilitate to the extent compatible with the primary objective of resource protection, multiple uses of the Sanctuary not prohibited pursuant to other authorities.

### **ESTABLISHMENT**

Section 315 of the National Marine Sanctuaries Act (NMSA or Act; 16 U.S.C. § ~~1445(a)~~ 1431 et seq.) authorizes the Secretary of Commerce to establish ~~S~~sanctuary ~~A~~advisory ~~C~~councils to provide advice ~~advise~~ and make recommendations to the Secretary of Commerce ~~in~~ regarding the designation and management of National Marine Sanctuaries. This authority has been delegated to the Director of the ~~National Marine Sanctuary Program Office of National Marine Sanctuaries~~ (~~D~~director). The ~~D~~director hereby establishes the Monterey Bay National Marine Sanctuary Advisory Council (~~C~~council).

This Charter provides a background on the Office of National Marine Sanctuaries and the Monterey Bay National Marine Sanctuary, and describes the objectives and ~~scope~~ roles of the ~~C~~council's activities, description of duties for which the ~~C~~council is responsible, procedural requirements on the appointment of ~~C~~council members and ~~O~~officers, requirements for the conduct of ~~C~~council members and meetings, and other requirements. All ~~C~~council activities must be conducted pursuant to this Charter and the protocols attached to and incorporated as part of this Charter.

### **SANCTUARY ADVISORY COUNCIL POLICY STATEMENT**

The ONMS regards the involvement of communities and the development of a stewardship ethic as vitally important to successfully protect sanctuary resources. One key way to achieve this involvement is the formation of sanctuary advisory councils.

Sanctuary advisory councils bring members of a diverse community together to provide advice to the sanctuary superintendent (authority delegated from the Secretary of Commerce and the Under Secretary for Oceans and Atmosphere) on the management and protection of the sanctuary, or to assist the ONMS in guiding a proposed ~~sanctuary~~ site through the designation process.

The ONMS is committed to the full support, utilization, and enhancement of councils at all sanctuaries. In order for councils to achieve their full potential, the ONMS within the limits of available resources will:

- At each site, provide sufficient support to allow councils to operate efficiently and effectively;

- Provide support and guidance from the national office to help councils operate efficiently and at a basic level of consistency across the system;

members of the public interested in the protection and multiple use management of Sanctuary resources. The membership is designed to be balanced in terms of points of view represented, geographic diversity, and advisory functions the Ecouncil will perform.

2. The Sanctuary Superintendent sits on the Ecouncil as a non-voting member and concurs with the scheduling of each meeting and the agenda to ensure that topics of discussion are relevant to the Sanctuary. The Sanctuary Superintendent shall also concur to other matters as indicated elsewhere in this Charter. Ecouncil meetings may not be conducted in the absence of the Sanctuary Superintendent or his/her designee.

(Of the numerous responsibilities encompassed within each entity, the specific functional area of expertise needing representation is identified in parentheses):

1. California Department of the Fish And Game; 2. California Department of Parks and Recreation 3. California Coastal Commission (coastal coordination and planning); 4. California EPA (water quality); 5. California Resources Agency (State natural resources trustee); 6. (ii) If a government entity decides no longer to participate as a member of the Ecouncil or fails to attend four consecutive Ecouncil meetings and is formally removed by the Director, the Sanctuary Superintendent shall invite another appropriate government entity to replace that agency on the Ecouncil, with the

Director's concurrence. A government seat shall not be converted to a non-government seat.

The alternate will have all the rights of the member at such times the alternate is officially substituting for the member. The Chair and the Sanctuary Superintendent must be notified before an alternate officially attends a meeting.

(iii) If a primary SAC council member resigns, the alternate will be asked to fill in on a regular basis, until a recruitment for both the primary and alternate seats can be conducted. The alternate may choose to remain the alternate, if he/she applies for the primary seat or not. The term for the alternate will be adjusted to match the term of the primary representative.

6. The individuals selected to fill the conservation, education, and research, and business and tourism seats on the SAC council

must also serve as the Chair of each respective working group.
