Credit: T. Tanaka, CDFW

Communication within CDFW

- **Alert Managers of relevant SAC agenda items**
- **Request information/guidance on Action items**
- **Notes are distributed to Managers and other Scientists (Subject Matter Experts)**
Credit: T. Tanaka, CDFW
- **Consult with Subject Manager Experts and Law Enforcement Division staff as needed**

Communication with local CDFW staff

- **Approximately 40 scientific and administrative staff, mostly Marine Region but some from Region 4 (terrestrial)**
- **Sanctuary Office Reports distributed to all**

Communication to SAC and Sanctuary staff related to CDFW

- **Since Dec 2002 (my start with SAC):**
 - **2005-2014: 17 updates on MLPA process**
 - **2007: Management of marine fisheries**
- **Other MR staff presentations:**
 - **Surfperch resources**
 - **Forage species**
 - **Kelp/urchin interactions**
 - **MPA Monitoring plan**

Other SAC issues related to CDFW

- Marine Reserves at Channel Islands
- Wildlife disturbance in tidepools
- Education/research on fishing issues
- Federal MPA process
- Fishing above bottom at Davidson Seamount
- Aquaculture (open ocean and Tomales Bay)
- Artificial reefs
- Forage species
- Sanctuary Site Evaluation List
- Introduced species regulations
- Whale disentanglement and disturbance
